# Pine & Crane Sitemap
Concept: Redesign & Branding
Educational Project

Made by   :   Jonathan Hackner
For the Class   :   Web Design 2
Taught by   :   Professor Ian Besler
At   :   Santa Monica College
Submitted   :   September 28, 2020

The idea: To keep similar links, though improve UX. Have a multi-page website with some single-page website features. Use a block structure and proper headers and design consistency for screen readers. Have a easy to use UX for screen reader, non-screen reader viewers, & overall acessibility. While retaining a similar aesthetic to their original restaurant and other restaurant Joy, I want to use this as a starting point to improve their functionality. In addition, I would like to find ways to improve their brand by looking to incorperate and respect their heritage.
